ANNUAL ANNOUNCEMENT

OF THE

THE LIBRARY
OF THE
UNIVERSITY OF ILLINOIS

LOUISVILLE

MEDICAL COLLEGE,

LOUISVILLE, KY.

SESSION OF 1877-78.

Medical Journal Steam Print, 104 Green Street, Louisville.

TRUSTEES.

HON. WM. PRESTON, President.
E. HUTCHINGS.
W. O. DODD.

HON. JOHN M. HARLAN, Vice President.
HON. LYTTLETON COOKE.
W. B. FLEMING, Secretary.

FACULTY.

E. S. GAILLARD, M. D.,

Professor of the Principles and Practice of Medicine and General Pathology, and Dean of the Faculty.
Second, between Green and Walnut.

JOHN GOODMAN, M. D.,

Professor of Obstetrics, Diseases of Women, and Reproductive Physiology.
Third, between Chestnut and Walnut.

J. M. KELLER, M. D.,

Professor of Operative and Clinical Surgery.
Hot Springs, Arkansas.

C. W. KELLY, M. D.,

Professor of Descriptive and Physiological Anatomy and Clinical Medicine, Registrar of the Faculty.
Second, between Green and Walnut.

A. B. COOK, M. D.,

Professor of Principles and Practice of Surgery.
135 *Broadway, between Fourth and Fifth.*

C. W. WRIGHT, M. D.,

Professor of Medical Chemistry and Chemical Physiology.
Jefferson and First.

GEORGE J. COOK, M. D.,

Demonstrator and Adjunct to the Chair of Anatomy.
Market and Twentieth.

C. W. NULL, M. D.,

Lecturer on Materia Medica and the Physiological Action of Medicines, and Superintendent of the Dispensary.

W. H. WATHEN, M. D.,

Clinical Lecturer on Diseases of Women and Children.

C. S. FENNER, M. D.,

Clinical Lecturer and Operator on Diseases of the Eye.

A. P. OWENS, M. D.,

Assistant Demonstrator.

J. H. CROSBY.

Curator of the Museum.

THE LOUISVILLE MEDICAL COLLEGE.

The next regular session will commence Monday, October 1, 1877, and will terminate in the last week of February, 1878.

Preliminary Course.—The Faculty will give a gratuitous preliminary course of lectures, didactic and clinical, commencing Monday, September 3d. This course will consist of lectures upon such subjects as are not discussed during the regular term; they will be of an elementary and introductory character, and will prove to those commencing their studies of great value; enabling them the better to appreciate the lectures of the regular course.

Hospital Advantages. — Students of this College will enjoy all the rights, privileges, and advantages of students at other schools in all that appertains to the hospitals and other charitable Institutions of the city. Louisville now claims a population of 150,000, and this affords a large supply of material for clinical instruction. The city has greatly enlarged the Louisville City Hospital by the addition of two large and handsome wings containing a new amphitheatre; male and female wards, medical and surgical; a lying-in ward, and an ophthalmic and an out-door department. To this Institution each member of the class has access three times a week to hear clinical lectures on the various subjects of medicine and surgery, and to witness all operations performed. The graduates of the Louisville Medical College have the privilege of becoming candidates for the positions of Resident Graduates at the Louisville City Hospital. These positions are secured by competitive examinations before an impartial Board of Physicians. WITH TWO EXCEPTIONS, THREE OUT OF EVERY FOUR POSITIONS TO BE FILLED HAVE, FOR SEVEN CONSECUTIVE YEARS, BEEN WON BY THE GRADUATES OF THE LOUISVILLE MEDICAL COLLEGE.

Change of the College Building.—The old friends of this College will perceive, by examining the title page of this Catalogue, that the Institution has been transferred to another and a very much larger building. This structure is four stories high, the front being of beautiful white stone, elaborately finished. The main building is sixty-seven feet wide, by about one hundred feet deep. In this are the business offices and Faculty room; one large Lecture Hall; a handsome Amphitheatre; the Chemical Laboratory; the Materia Medica Cabinet; and the private offices of the Janitor and employees. The seatings in the Lecture Hall are composed of iron and varnished woods, and, like those in the Amphitheatre, are carefully arranged for the entire comfort of the students. The rear building is one hundred feet long, by twenty-eight feet wide, and is three stories high. In the third story is a dissecting-room one hundred by twenty-six feet, thoroughly lighted and ventilated, and affording space in which two hundred and fifty students may dissect at one time. This is one of the largest and best dissecting-rooms in this country. The second story of the rear building is ninety by twenty-six feet, and is devoted solely to the museum; this has been completely fitted and furnished with handsome cases; and the large num-

ber of specimens are not only interesting to examine, but will add very much to the pleasure and profit of lecture-room instruction. The papier-maché collections of this museum are of great value; among these are superior papier-maché models of the brain, heart, lungs, eye, ear, larynx, large joints, the abdominal and pelvic viscera, the gravid uterus in each month of gestation, with the fœtus and membranes, etc. These models are accurately colored, and are obtained from the best collections in Europe. There are also a large number of enlarged colored drawings, anatomical, medical, obstetrical and surgical. For practical teaching, these preparations are of great value to the class. The first story of this building is used as a large Dispensary and for anatomical purposes. It will be seen, therefore, that in regard to the size of and number of rooms, with the thoroughness and completeness of conveniences, etc., the Faculty offer a College far superior to the great majority of Institutions in this country.

Dispensary.—The best advantages in regard to private clinical instruction will be now afforded to the entire class. There will be every week special dispensary clinics on the Practice of Medicine and Surgery; on the diseases of women and children; on the throat; on the eye and ear; on syphilography and cutaneous diseases. The Faculty have so arranged as to make the clinical advantages of their Dispensary one of the chief and best features of their Institution.

Prizes.—For the best standing in all the branches, a gold medal. Hereafter all competitors for this medal will be examined by each member of the Faculty in the presence of the entire Faculty convened for this purpose. The Faculty, thus fully informed, will be the arbiters in determining the proper recipient of this high honor; the first honor of the College.

For the best thesis, a silver medal.

For the best anatomical specimen, a silver medal.

Professor Keller offers a prize for the best standing in Surgery. Students of all Colleges are invited to compete.

Professor Kelly offers a prize to the student passing the best examination in Anatomy. Students of all Colleges are invited to compete for this prize also.

Profs. Goodman, Cook, and Wright, each, offer as usual a suitable prize for the best standing in their respective branches.

Professor Gaillard offers to the student whose standing is best on the Practice of Medicine, a gold medal. The students of all Medical Colleges may compete for this prize. The committee to assign the prize will be unconnected with any Medical College.

Dr. C. W. Null offers a medal to the student who stands best on the branches taught by him; Materia Medica and the Physiological Action of Medicines.

Facilities for Dissecting.—Anatomical material will be furnished in ample quantity, and students may rely upon the Demonstrator for securing to them every facility and advantage in the prosecution of their anatomical studies.

Examinations.—Several of the Faculty propose to devote a portion of each day to examinations on the subjects of past lectures. This will tend to impress such subjects more indelibly upon the memory, and will familiarize students with practical details in regard to important subjects.

Commencement Exercises—In addition to the usual addresses on this occasion, a Salutatory and Valedictory will be delivered by members of the graduating class, the orators being elected by the candidates for graduation, on the first Saturday of January.

Text Books.—The following text books will be used:

MEDICAL AND SURGICAL DISEASES OF WOMEN.

—Simpson's Clinical Lectures on the Diseases of Women; Bennett on Inflammation of the Uterus, etc.; Thomas on Diseases of Women.

PRINCIPLES AND PRACTICE OF MEDICINE.—Watson, Tanner, Aitken, Roberts, Flint, Niemeyer, Bristowe.

MATERIA MEDICA, THERAPEUTICS AND CLINICAL MEDICINE.—Wood's Therapeutics and Pharmacology; Stillé's Therapeutics and Materia Medica; Pareira's Materia Medica and Therapeutics; Ringer; Roy.

OBSTETRICS.—System of Obstetrics, by Henry Miller; Meadow's Obstetrics; Leischman's Midwifery; Playfair's Obstetrics.

PRINCIPLES AND PRACTICE OF SURGERY.—Ashurst, Erichsen, Chelius, Velpeau, Cooper, Holmes, Syme, Bryant, Gross.

DISEASES OF WOMEN AND CHILDREN.—Hewitt, Thomas, West, Tanner.

CHEMISTRY AND TOXICOLOGY.—Fowne's Chemistry; Brande and Taylor's Chemistry.

ANATOMY.—Gray, Wilson, Cruveilhier.

PHYSIOLOGY.—Flint, Marshall, Carpenter, Dalton.

Fees.—The fees of this College will be as follows:

Matriculation fee	$ 5 00
Professors' Tickets	50 00
Dissection	10 00
Graduation	30 00
Class Contribution Fund	1 00

The city requires a payment of five dollars for attendance upon the Clinical Lectures at the Louisville City Hospital from students of all medical colleges in the city. This fee is paid at the hospital.

Fees, as in all colleges, are payable strictly in advance.

Change of Fees.—It will be seen that material changes have been made in the fees of this College. The Faculty deemed it best for the interests of all medical colleges and for the improvement of medical education, that the Louisville Medical College should become a member of the Association of American Medical Colleges, as this Association is intended to secure the best interests of the Profession, to improve medical education, and to secure the welfare of medical colleges. In all of which purposes the Louisville Medical College heartily joins. Having become a member, the graduation fee, usual throughout the country, is now therefore charged. As it was impossible to secure a rate of fees in the West and South similar to that charged in the East, as the Association deemed it best to limit the Beneficiary provision to five per cent., and as the Western and Southern medical colleges charge generally for Professors' tickets $50, the Louisville Medical College adopts the same rate. It stands ready and pledged to unite with the Western and Southern medical colleges in adopting the Eastern fee rates, whenever a fair portion of such colleges in good standing deem this advisable.

Requirements for Graduation.—1. The candidate must have attended two full courses of lectures, the last of which must have been in this Institution.

2. He must have taken the Demonstrator's ticket for at least one session.

3. He must have attended the course of Clinical Instruction in the Louisville City Hospital, or some other of equal repute.

4. The writing of a thesis will be optional with the applicant.

N. B.—The voting for each candidate will be by ballot.

If, after examination for the degree, he shall be found to have received three negative votes, he will be entitled to another examination. Should he decline this, he may withdraw, and will not be considered as rejected.

The degree will not be conferred upon any candidate who is often absent from the regular lectures of the College, or who absents himself from the public Commencement without the special permission of the Faculty.

Premature examinations will not be granted under any circumstances whatever.

Success of this College.—The success of this College has been unprecedented. Though established since the close of

the war (in September, 1869), it has in recent years attracted larger classes than many of the oldest medical colleges of the West and South, and in the session terminating in 1876, it had a larger class than was to be found in any college West or South of Philadelphia. The status of its alumni can be best appreciated by the fact that for five years, in the last seven, three out of every four hospital positions given annually by the city of Louisville to recent graduates, have been won, after public examination, by the graduates of the Louisville Medical College. That a college with so unusual a record should escape the shafts of enmity, of unjust and untruthful criticism, with unscrupulous defamation and frequent slander, was not to have been expected. It has, therefore, been the target for a few very small archers of whose petty efforts it may be said, as was said by Webster of the harmless assaults of Hayne, "there is not strength enough in the bow." With a charter as strong as any in the world, and represented by a Board of Trustees, socially, personally, and professionally prominent; with a Faculty trained, experienced, and successful; with a college rarely surpassed (even by the oldest) in size, equipment, and conveniences; with abundant and varied dispensary clinics in medicine, surgery, gynæcology, and specialties, the Louisville Medical College, as its faithful alumni will be gratified to learn, is stronger and more efficient to-day than it has ever been before.

A Great Advantage to Students.—The attention of medical students is particularly directed to the fact, that all those who attend one course of lectures in any of the Medical Colleges which close in the last week of February, can commence another course of lectures, in the Kentucky School of Medicine, at once; that is, in the first week of March. If the student entered the Louisville Medical College as a second-course student, he can come forward for graduation either in February, or, if he prefers doing what is best for his own interests, he can, by paying half rates only (as is stipulated by the Association of American Medical Colleges, Articles of Confederation, Art. V, Sec. 3) receive the advantages of another course, and come forward in June.

In all cases and in all medical colleges, however, students must remember that to be enabled to come forward for graduation at the end of a second course, fifteen months must have elapsed between the beginning of the first course and the end of the second. If a student enters the Louisville Medical College as a first-course student, he can, in seventeen months, attend three courses of lectures and graduate, paying for his last course only half rates; whereas, if he enters any other medical college in October, he can not graduate in less time (that is, in less time than seventeen months), and will have received only two courses of lectures. If the expenses of going home and returning are estimated, and only half rates be calculated for students taking a third course, it will be found that a student entering the Louisville Medical College in October, can take three instead of two courses in seventeen months, and that he will pay for three courses no more than he must pay elsewhere for two courses and the cost of going home, board, and returning after his first course. In this estimate the expenses of board are of course included. There are few students, it is believed, who will not gladly take three courses of lectures, if these (with the cost of board estimated) can be enjoyed in the same time and for the same outlay required, where the student takes only two courses.

Preceptors cannot fail to see these great advantages for their students; three courses of lectures obtained in the same

time and for nearly the same amount of money as are required of a student who takes only two courses elsewhere. The Faculty recommend their first course of lectures as a substitute for one year's office reading; for the student in this course of five months goes over more ground than he can do by an office study of one year, and has, in addition, all the advantages of demonstrations, dissecting, clinical observation and daily examinations.

Preliminary Instruction. — Students who can not attend the course of lectures of the Louisville Medical College, but design attending a course of lectures in the Kentucky School of Medicine, can matriculate for this course in January and attend the lectures of the Louisville Medical College during January and February without charge.

On Arrival.—Students are particularly advised to proceed at once to the College Building, Jefferson and First Sts., where full information will be given by the Janitor in regard to the price of board, boarding-houses, etc. Good board may be obtained for four ($4) dollars per week.

The Faculty earnestly advise students to matriculate as early as possible, for the following reasons: 1st. There is not any danger in visiting Louisville, as there is in visiting the cities of the Gulf States, before the appearance of cold weather. 2d. There is a serious disadvantage to all students who join the class late in the session, as those lectures will already have been delivered, the full comprehension of which is necessary to a clear apprehension of the subsequent lectures of the course. Students are earnestly advised, therefore, to join the class as early as possible. They will find it much to their advantage to attend the preliminary and gratuitous course, which begins on the first Monday of September.

CLASS OF 1876—77.

J. B. ALLEN, Ky., G. W. Norman preceptor; A. J. Austin, Miss., Kentucky School of Medicine preceptor; A. B. Anderson, Ala., S. Henry preceptor; J. D. Austin, Miss., Kentucky School of Medicine preceptor; E. C. Anderson, Ala., Louisville Medical College preceptor; W. L. Abernethy, N. C., Kentucky School of Medicine preceptor; I. D. Alderson, M. D., Va.; George M. Allder, M. D., Mo.; C. B. Alford, M. D., Ill.; John E. Allder, M. D., Mo., Kentucky School of Medicine preceptor.

W. E. Booker, Ky., Louisville Medical College preceptor; S. T. Brittle, Ala., J. R. Hoffman preceptor; Charles H. Burt, Ill., I. T. Stewart preceptor; Thomas M. Bridges, Ky., C. C. Forbes preceptor; Chester Brown, Mich., S. C. Ostrom preceptor; W. T. Boyie, Ky., O. H. Witherspoon preceptor; S. P. Black, Iowa, M. Meredith preceptor; E. F. BUECKING, Ill., Louisville Medical College preceptor; George W. Benton, Texas, R. A. Miller preceptor; L. M. BASSETT, Texas, Louisville Medical College preceptor; James P. Burton, Tenn., A. P. Hawthorne preceptor; J. L. Burdon, Ky.; Leo Brietzman, Wis.; E. T. Beagel, Ohio; H. W. Brown, Ark.; M. A. Bland, Tenn.; C. C. Barton, Ohio; J. W. Blackmore, Texas, J. C. BRUBAKER, Ohio; B. C. Bland, W. Va., Louisville Medical College preceptor; Peter Berthet, M. D., La.; W. F. Blakemore, M. D., Ark.; J. R. Buchanan, M. D., Miss.; W. H. Bailey, M. D., I. T.; T. E. Butler, M. D., Miss.; J. C. Beard, M. D. Ky.; Vincent Burgess, M. D., N. Y.; A. A. Barton, M. D., N. Y.; John D. Burch, M. D., Ky.; J. M. Byrd, M. D., Miss., Louisville Medical College preceptor; E. J. Burnett, Ky. School of Medicine preceptor.

Truesdale Calloway, Ga., Louisville Medical College preceptor; J. W. Clarke, Ark., C. D. Taliaferro preceptor; William Curry, Ky., E. E. Hume preceptor; J. J. Chambliss, Ga., A. J. Logan preceptor; Jos. L. Clarke, Tenn., J. M. Ellis preceptor; Geo. M. Carnachan, Pennsylvania, J. M. Keller preceptor; Wm. H. Cole, Iowa, D. V. Cole, preceptor; Marcus Carter, Mo., J. B. Morrison preceptor; W. B. CHEATHAM, Ga., C. A. Cheatham preceptor; J. F. Clarke, Texas; C. T. Clarke, Texas, Kentucky School of Medicine preceptor; J. H. Crosby, N. Y., A. H. Crosby preceptor; Thomas S. Curtis, Ky.; F. H. Carter, Mo.; J. M. Crouch, Ga.; L. P. CORNELL Iowa; J. M. Cox, Miss.; L. B. Childs, Va., Louisville Medical College preceptor; J. T. Culpeper, M. D., Ga.; J. P. Campbell, M. D., Ky.; J. P. Caldwell, M. D., Texas; S. R. Carroll, M. D., Tenn.; C. M. Clay, M. D., Texas; J. H. Cox, M. D., Mo.; H. D. Cosby, M. D., Ky., Kentucky School of Medicine preceptor.

George W. Ditzler, Ky., Louisville Medical College preceptor; A. DIXON, Ky., W. M. Hanna preceptor; A. E. Dudding, W. Va., G. W. Dudding preceptor; Joseph L. Duncan, Tenn., J. M. Shelton preceptor; H. B. DeKress, Ky., Louisville Medical College preceptor, Geo. W. Daniels, Ind., William Lomax preceptor; W. A. DICKEY, Ind.; W. A. Dulaney, Miss., Louisville Medical College preceptor; W. E. Dawson, M. D., Mo.; J. B. Dunn, M. D., Ark.; C. B. Dunn, M. D., Ark., Kentucky School of Medicine preceptor.

B. F. EAGER, Miss.: J. P. Ellis, Ky.; J. E. Erwin, Va., Louisville Medical College preceptor; E. S. Ellzey, M. D., Miss.; T. M. Elliott, M. D., Ala.; J. W. Fairchild, M. D., Miss.; A. B. Faller, M. D., Ill., Kentucky School of Medicine preceptor; M. W. FLETCHER, Ala., Louisville College preceptor; R. B. Fishburne, M. D., Va.; Z. T. Funk, M. D., Ind.; Jas. M. Fry, M. D., Ind., Kentucky School of Medicine preceptor; A. A. Franke, Ill., John Franke, preceptor; C. A. Foster, N. Y., C. P. Kir-

ley preceptor; Jos. R. FARRIER, Ala., University of Nashville preceptor; W. Z. Faust, Ga., J. Watkins preceptor; J. C. B. FOSTER, Ky., J. A. Ireland preceptor; A. W. FOREMAN, I. T., Louisville Medical College preceptor; H. J. Fuller, Ill., R. C. Scraggs preceptor; John W. Fischer, Ind., Wm. Morrow preceptor.

O. B. GRIGGS, Ind., Louisville Medical College preceptor; W. C. Gervin, Ala., T. R. Ward preceptor; John B. Grant, Ky., N. C. Brown preceptor; R. F. GRAY, N. C., Louisville Medical College preceptor; J. L. Gunn, N. C., Allen Gunn preceptor; John A. Gladden, Ga., Kentucky School of Medicine preceptor; O. L. GEIGER, Ky., Louisville Medical College preceptor; John W. Gamble, Ala., Charles Dunham preceptor; DAVID L. GAILLARD, Tenn., E. S. Gaillard preceptor; GEORGE F. GAINES, Ky., Louisville Medical College preceptor; S. Greenleaf, M. D., Iowa; L. H. Greer, M. D., Ind., Kentucky School of Medicine preceptor.

J. W. Haydon, M. D., Ky.; M. Harrison, M. D., Ark.; T. A. Harvie, M. D., Ark.; M. L. Herring, M. D., Ky.; R. W. Hill, M. D., N. C.; J. B. Holt, M. D., Texas; R. E. Howard, M. D., Miss.; W. L. Hudson, M. D., N. C., Kentucky School of Medicine preceptor; L. V. HOPSON, Ky., Samuel Slandead preceptor; J. L. Herbet, Ohio, W. H. Wirt preceptor; James L. Henderson, Penn., L. Shreffer preceptor; John A. Holler, Ky., Louisville Medical College preceptor; W. L. Hewins, Ind., Chas. Park preceptor; N. T. Hayes, Ky., Louisville Medical College preceptor; W. C. Henry, Ala., S. Henry preceptor; J. H. Hickman, Va., E. B. Spencer preceptor; H. M. Holcombe, S. C., L. B. Johnson preceptor; William Holburn, Ky., Louisville Medical College preceptor; T. HUDSON, Texas, J. W. Hudson preceptor; Albert Justice, Ind., L. Tussell preceptor; W. A. HALL, Iowa; B. F. HALL, Iowa; D. P. Hicks, La.; J. P. Holtzman, Ind., Louisville Medical College preceptor; John W. Howard, Ky. School of Medicine.

E. T. Irwin, M. D., Ky., Kentucky School of Medicine preceptor; John P. Irwin, N. C., T. J. More preceptor; M. C. Jones, Ill., P. S. McLaughlin preceptor; L. O. Jones, Ky., J. L. Willingham preceptor; William F. Ireland, M. D., Ky.; J. L. Goree, M. D., Ark.; L. W. JONES, Ill., P. S. McLaughlin preceptor; John W. Jewett, Tenn., J. M. Shelton preceptor; F. L. JOHNSON, Texas, Louisville Medical College preceptor; A. J. Jagoe, M. D., Ind.; Z. L. Hay, M. D., Ill., Kentucky School of Medicine preceptor; J. M. O'Kelly, N. C., J. E. Fearington preceptor; L. D. Kindred, Ky., Joseph Graves preceptor; Chris. Keefe, N. Y., R. Loughran preceptor; B. F. Kibley, Va., Louisville Medical College preceptor.

R. N. Lemon, Va., John Steele preceptor; John H. Livingston, Fla., E. T. Sabal preceptor; J. A. Leming, M. D., Tenn., J. M. Littler, M. D., Ind.; N. G. Long, M. D., Ga.; A. H. Lathrop, M. D., Iowa; J. M. McConathy, M. D., W. Va; M. M. Malcolm, M. D., W. Va.; W. A. Metcalf, M. D., Ky.; S. M. Miller, M. D., Tenn.; Geo. H. Mudd, M. D., Mo.; E. J. Kirksey, M. D., Ga., Kentucky School of Medicine preceptor; C. F. Mitchell, Mo., C. M. Ross preceptor; H. W. Moore, Ky., J. P. Thomas preceptor; A. W. MORRIS, Ky., E. Warfield preceptor; Theo. Miller, Ky., Louisville Medical College preceptor; GEO. A. MCCANDLESS, Penn., Medical Department Worcester preceptor; Geo. H. McNeill, Miss., J. J. Walton preceptor; J. H. Montgomery, Ky., Louisville Medical College preceptor; C. H. Morris, W. Va., W. A. Dunbar preceptor; Calhoun McBride, S. C., H. L. Beatty preceptor; J. A. Miller, S. C., Louisville Medical College preceptor; W. U. Montgomery, Miss., S. A. Harper preceptor; W. E. Montgomery, La.; W. W. Morton, W. Va.; JOHN MORAN, Mo., Louisville Medical College preceptor; W. P. McGlynn, Ky., John Goodman preceptor; Dwight Monroe, M. D., Ala.; J. McEachin, Miss., Lou. Med. College preceptor.

GEORGE A. NELSON, Texas; J. R. Nolan, Miss., A. H. Buggs preceptor; C. W. NULL, N. C., Lou. Med. College preceptor.

A. P. OWENS, Ill., J. W. VanBrunt preceptor.

R. F. Palmer, Ind., G. W. Brown preceptor; W. G. Penn, Texas; P. G. Penn, Ky. School of Medicine preceptor; M. K. Palmer, Ky., Palmer and McChud preceptors; Howard Powell, Pa., Wm. Irwin preceptor; E. L. Patterson, Tenn., T. J. Shannon preceptor; T. D. PARKE, Ala., C. D. Parke preceptor; W. S. Price, Ind., G. M. Knight preceptor; F. J. Posey, Ky.; George W. Pendleton, Mo., Lou. Med. College preceptor; M. L. Pearson, M. D., Ark.; J. P. Peeler, M. D., Fla.; J. P. Pendergrass, M. D., Ga.; E. L. Priest, M. D., Mo.; H. J. Pool, M. D., Ky.; A. D. F. Pound, M. D., Ky., Kentucky School of Medicine preceptor.

J. J. Rankin, M. D., Tenn.; R. P. Ratts, M. D., Ind.; O. I. Reasoner, M. D., Ind.; J. A. Richardson, M. D., Iowa; M. W. Richie, M. D., Iowa; W. K. Rogers, M. D., Ill., Ky. School of Medicine preceptor; F. L. Robinson, Texas; R. P. Ray, Texas, Lou. Med. College preceptor; W. M. Reedy, N. C., I. A. Reedy, preceptor; H. B. Ritter, Ind., Lou. Med. College preceptor; T. N. Rape, Texas, E. M. Chapman preceptor; E. T. Rucker, Va.; S. B. Christian preceptor; D. S. Ramseur, S. C., D. G. Block preceptor; W. F. Rodgers, Tenn., E. J. Page preceptor; R. B. Richardson, Va., E. N. Wood preceptor; L. W. Raison, Ky., Dr. Tierman preceptor; W. N. Rogers, Texas, H. C. Ghent preceptor; O. C. Reynolds, Ill.; John R. Ramsey, Ga., Lou. Med. College preceptor; A. J. Redwine, Ark., Ky. School of Medicine preceptor.

J. W. Steward, Ind., W. F. Sherrer preceptor; Geo. E. Samuels, Texas, Drs. Murch and Long preceptors; T. C. STRONG, Tenn., W. C. McCuiston preceptor; J. W. Sarles, Ky., N. C. Brown preceptor; R. M. SADDLER, Miss., J. L. Abbott preceptor; J. B. Samuels, Kansas, J. S. Jones preceptor; J. I. Smith, Ind., E. J. Page preceptor; J. S. STROTHER, Ky.; J. P. Shacklett, Ky.; L. R. Sale, Ind., N. C. Salisbury, Minn., Lou. Med. College preceptor; J. W. Smith, Ky., R. H. Smith preceptor; O. W. SWANN, Ohio, W. H. Wirt, preceptor; F. F. SAVAGE. Ark.; H. G. Study, Ind.; J. N. Study, Ind.; D. W. Sissom, Ga.; J. A. Snowden, Ky.; W. P. Shelly, Ga.; W. S. SAVAGE, Texas; J. H. STEVENS, Texas; L. W. Howard, Ky., Lou. Med. College preceptor; L. A. Sager, M. D., Ark.; J. L. Sawyer, M. D., Iowa; J. Smith, M. D., Va.; W. R. Schoonover, M. D., Ind.; J. W. Sorrels, M. D., Ark.; John L. Strong, M. D., Tenn.; W. D. Taylor, M. D., Ala.; D. W. Townsend, M. D., Wis.; Milton Turnure, M. D., N. J., Robert Taylor, M. D., Ky., Ky. School of Medicine proceptor; H. M. TEMPLETON, Iowa, James Brydley preceptor; W. E. Todd, Miss., B. H. Whitfield preceptor; T. G. Taylor, Va., Lou. Med. College preceptor; W. E. Tilman; H. McK. Smith, Tenn., E. J. Page preceptor.

J. C. Walton, N. C., W. M. Terrell preceptor; J. P. Woods, Ark., T. J. Woods preceptor; D. W. White, Ill., W. N. Ayres preceptor; R. B. Whitley, N. C., W. B. Ricks preceptor; M. J. Walker, S. C., J. F. Lindsey preceptor; J. M. Wathen, Ky., J. C. Push preceptor; H. C. Whitney, Ky.; L. A. Waters, Mo., W. Waters preceptor; R. J. Wilson, M. D., S. C.; M. C. WEAVER, Ark.; Lee Williams, Ohio, Lou. Med. College preceptor; M. E. WARREN, Ind., Lou. Med. College preceptor; G. R. Wells, M. D., Ind.; W. D. Wilkes, M. D., Ga.; B. F. Whitmore, M. D., Mo.; H. P. Whiteside, M. D., Tenn.; W. J. Wilkins. M. D., Texas, M. P. Williams, M. D., Ky., L. N. Wood, M. D., Wis., T. M. Wright, M. D.,

Ohio, T. J. Woods, M. D., Ark., N. M. Woods, M. D., Miss., E. D. Wingo, M. D., Miss., R. T. Worley, M. D., Ill., Ky. School of Medicine preceptor.

JAS. YOUTSEY, Ky., Lou. Med. College preceptor; J. H. YARGER, Iowa, Wetherill and Young preceptors; S. E. York, M. D., Ala.; John H. Young. M. D., Ala., Ky. School of Medicine preceptor: T. B. YOUNG, Ind., D. L. B. Cosby preceptor—283.

NOTE.—Each name in small capitals represents a graduate.

Notices.—1. Any omissions or inaccuracies should be immediately reported.

2. Members of the class can have as many copies of this Catalogue as they may desire.

COMMENCEMENT EXERCISES.

The Graduating Exercises of the Louisville Medical College were held at Library Hall, February 27, 1877. The ladies, a fine band of music and lovely flowers lent grace and beauty to the occasion. Prayer by the Rev. J. G. Carnachan, of Meadville, Pa. Salutatory by Dr. M. E. Warner, Ind. Valedictory by Dr. W. A. Dickey. Hippocratic Oath administered, as usual.

Gold Medals—To M. C. Weaver, of Arkansas, and A. P. Owens, of Illinois.

Professor Cook's Prize—L. M. Bassett, of Texas.

Professor Keller's Prize—T. D. Parke, of Alabama.

Professor Kelly's Prize—Geo. M. Carnachan, Pennsylvania.

Professor Gaillard's Prize—D. L. Gaillard, South Carolina. This prize was decided by three prominent physicians entirely unconnected with the College.

Professor Wright's Prize on Chemical Philosophy—B. F. Eagar, Mississippi.

Professor Wright's Prize on Toxicology—L. M. Bassett, Texas.

Professors Ireland's and Goodman's Prize—O. L. Geiger, Kentucky.

Dr. W. H. Wathen's Prize on Clinical Diseases of Women—L. M Bassett, Texas.

Thesis Prize, Silver Medal, presented by Cook & Sloss—W. A. Dickey, Indiana.

Dr. C. W. Null's Prize—A. P. Owens, Illinois.

Honorable Mention—David L. Gaillard, South Carolina.

The speeches of the class, officers and that of the Rev. Dr. J. G. Carnachan, of Meadville, Pa., were greatly admired.

ARTICLES OF CONFEDERATION.

(*To be subscribed and conformed to by all the Colleges of the Association.*)

ARTICLE I. OF THE FACULTY.

The medical members of the Faculty must be *regular* graduates or licentiates and practitioners of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession.

ARTICLE II. OF TUITION.

Sec. 1. The scheme of tuition shall provide for a yearly systematic course of instruction covering the general topics of Anatomy including dissections, Physiology, Chemistry, Materia Medica and Therapeutics, Obstetrics, Surgery, Pathology and Practice of Medicine. The collegiate session, wherein this course is given, shall be understood as the "regular" session.

Sec. 2. Said Regular Session shall not be less than twenty weeks in duration. This Section to go in force at and after the Session of 1879–80.

Sec. 3. Not more than one regular session, counting the regular session as one of the two courses of instruction required for graduation, shall be held in the same year.

ARTICLE III. REQUIREMENTS FOR GRADUATION.

No person, whether a graduate in medicine or not, shall be given a diploma of "Doctor of Medicine" who shall not have fulfilled the following requirements, *except* as hereinafter provided for in Article IV:—

1. He must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years.

2. He must file a satisfactory certificate of having studied medicine for at least three years under a *regular* graduate, or licentiate and practitioner of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination for graduation unless his term of three years' study shall have been completed, or shall expire at a date not later than three months after the close of the final examination. This clause is to take effect at and after the session of 1879–80.

3. He must file the proper official evidence that, during the above-mentioned three years,

he has matriculated at some affiliated college, or colleges, for two regular sessions, and in the course of the same (except as provided in 4) has attended two full courses of instruction on the seven topics mentioned in Article II. But the *latter*, at least, of the two full courses must have been attended at the college issuing the diploma. No two consecutive courses of instruction shall be held as satisfying the above requirements unless the time between the beginning of the first course and the end of the second is greater than fifteen months.

4. In case a college shall adopt a systematic graduated scheme of tuition, attendance on the whole of the same shall be equivalent to the requirements mentioned in 3, *provided* such scheme includes instruction in the seven topics mentioned in Article II, and requires attendance at at least two yearly regular Collegiate Sessions of not less than twenty weeks' duration each.

5. The candidate must have passed a personal examination before the Faculty on all seven of the branches of medicine mentioned in Article II.

6. He must have paid in full all College dues, including the graduation fee.

ART. IV. OF HONORARY DEGREES.

An honorary degree of "Doctor in Medicine" may be granted in number not exceeding one yearly, to distinguished physicians or scientific men of over forty years of age. But in such case the diploma shall bear across its face the word "Honorary" in conspicuous characters, and the same word shall always be appended to the name of the recipient in all lists of graduates.

ART. V. OF FEES.

Sec. 1. All fees shall be paid in lawful money, and no promissory notes or promises to pay shall be accepted in lieu of cash for payment of fees.

Sec. 2. No ticket, or other certificate of attendance upon college exercises, shall be issued to any student until the dues for the same shall have been fully paid.

Sec. 3. The established fees for the exercises of the regular session, except the matriculation fee, graduation fee, fee for dissections, may be reduced not more than one-half to graduates of other affiliated colleges of less than three years' standing, and to under-graduates of the same who have already attended two full courses of the instruction of the regular session.

Sec. 4. The same fees may be remitted altogether to a college's own alumni, to graduates of other affiliated colleges of three years' standing—the three years dating from the time of graduation and ending at the close of the regular session for which the tickets are given—to under-graduates who have already attended two full courses of the instruction of the regular session, the latter of which, at least, shall have been in the college making the remission, and to theological students, when not candidates for a diploma.

Sec. 5. The same fees may be reduced or remitted to deserving indigent students, to a number not exceeding five per cent. of the number of matriculants at the previous regular session of the college.

Sec. 6. Under no circumstances whatever, other than the above, shall the Faculties, or any member of the same, grant, *upon their own authority*, any remissions or reductions of established fees. And it is distinctly understood and agreed that the Faculties will discountenance and oppose the authorizing by governing Boards of the admission of individual students upon other than the regularly established charges for their grade.

Sec. 7. Remission or reduction of fees for other exercises than those of the regular session, return to a student of any monies after payment of fees, or an appropriation of funds of the college for payment of any student's fees, or part thereof, shall be deemed violation of the provisions of this article in regard to remission or reduction of fees.

ART. VI. OF RECOGNITION OF OTHER COLLEGES.

No college shall admit to the privileges accorded in Articles III and V the students or graduates of any college which, during any period of the student's or graduate's pupilage, shall have been excluded from the list of affiliated colleges recognized by the Association.

ART. VII. AMENDMENTS.

Amendments to these Articles shall be proposed and adopted in the manner prescribed for amendments to the Constitution.

As a member of the Association of American Medical Colleges, the Louisville Medical College will be governed strictly by these articles.

E. S. GAILLARD, Dean.

CHARTER

OF THE

LOUISVILLE MEDICAL COLLEGE.

CHARTER.

On file in the office of the Secretary of State, at Frankfort, Ky.; published in the Statutes of Kentucky, "Local Acts, January, 1869, p. 172," and filed with the Secretary of the Association of American Medical Colleges at Detroit, Michigan.

An Act to incorporate the Louisville Medical College.

1. *Be it enacted by the General Assembly of the Commonwealth of Kentucky*, That W. N. Haldeman, John Joyes, J. W. Akin, J. J. Porter, David Cummins, B. M. Wible, Thomas E. Wilson, and Lyttleton Cook be, and are hereby, created a Body Corporate and Politic, with perpetual succession, to be known as the Trustees of the Louisville Medical College, and by this style be empowered to acquire and hold, in the city of Louisville, property, personal, real, or mixed, to the amount of one hundred thousand dollars, to be used for the benefit of the said Louisville Medical College in the said city of Louisville.

2. That the said Trustees shall elect a President and Secretary, and such other officers as may be necessary to transact the business of corporation, and when thus organized may ke, have and use a common seal, which they y change or alter at pleasure.

3. That the property, real, personal, or mixed, which may be acquired and held by the said Trustees for the use and benefit of the said Louisville Medical College, whether held in fee or under lease, shall be entitled to all the immunities in reference to State or local taxation, which have been heretofore extended to educational Institutions by the statute laws of the Commonwealth.

4. That the said Trustees shall have power to appoint as many teachers or professors of medicine, surgery, dentistry, and the collateral sciences as they may deem necessary, and may confer the degrees or titles of Doctor of Medicine, Doctor of Dentistry, or the minor degrees of Bachelor or Master of these professions upon such applicants as may be recommended by the Faculty or corps of teachers or professors, or by any Examining Board of Experts to whom they may commit the duty or office of examination, and grant diplomas in ordinary or *Causa Honoris* to such persons as they may deem worthy.

5. The majority of the whole number of Trustees shall constitute a quorum to transact all of the ordinary business of the corporation, but in the election or removal of professors or teachers, a majority equal to three-fourths of the whole Body shall be necessary to a final decision.

6. Vacancies in the Board of Trustees, from any cause, may be filled by the acting members.

7. The Trustees may create and sell scholarships, provided that all money received through the sale of such scholarships shall be invested for the benefit of said school, and that the amount realized from this source shall be limited to twenty thousand dollars.

8. That as W. N. Haldeman and John Joyes are the only surviving corporators of the Clay School of Medicine now residing in Kentucky, and the Louisville Medical College is intended to take the place of said Clay School, the charter of said Clay School of Medicine be, and the same is hereby, repealed.

[Signed] JOHN T. BUNCH,
Speaker of the House of Representatives.

WILLIAM JOHNSON,
Speaker of the Senate.

Approved January 26, 1869.

By the Governor:

J. W. STEVENSON.

S. B. CHURCHILL, Secretary of State.

COMMONWEALTH OF KENTUCKY.

I, W. T. Samuels, Assistant Secretary of State, certify that the foregoing bill is truly copied from the original enrolled bill on file in the office of the Secretary of State.

Witness my hand and the seal of the State at my office in the city of Frankfort, Ky., this 19th day of February, A. D., 1869. (L. S.)

W. T. SAMUELS,
Assistant Secretary of State.

KENTUCKY SCHOOL OF MEDICINE,

LOUISVILLE, KY

TWENTY-SECOND ANNUAL SESSION.

UNIVERSITY OF ILLINOIS-URBANA
3 0112 105812777

FACULTY.

A. B. COOK, M. D.,

Professor of the Science and Art of Surgery and of Clinical Surgery; President and Registrar of the Faculty.

E. S. GAILLARD, M. D.,

Professor of Principles and Practice of Medicine and General Pathology, and Dean of the Faculty.

JOHN GOODMAN, M. D.,

Professor of Obstetrics and Reproductive Physiology.

J. A. IRELAND, M. D.,

Professor of Diseases of Women and Children.

C. W. KELLY, M. D.,

Professor of Descriptive and Physiological Anatomy and Clinical Medicine.

C. W. WRIGHT, M. D.,

Professor of Medical and Physiological Chemistry.

G. J. COOK, M. D.,

Adjunct to the Chair of Anatomy and Demonstrator of Anatomy.

C. W. NULL, M. D.,

Lecturer on Materia Medica and the Physiological Action of Medicines; and Superintendent of the Dispensary.

A. P. OWENS, M. D.,

Assistant Demonstrator.

The Board of Regents have fully reorganized this highly distinguished and widely known Institution, whose very numerous alumni, as teachers and practitioners, occupy distinguished positions throughout this country.

A Spring Session, in lieu of the usual Autumn Session, is determined upon for many influential reasons:

1st. Because there are already a sufficient number of Medical Colleges holding their sessions in Autumn. 2d. Because there is an imperative demand for a Spring Course, both by those seeking to commence or to close their collegiate life at this season. 3d. Because there is no known reason why students should be compelled to defer attending a Lecture Course until October of each year. 4th. Because large numbers of the best young men are always anxious to continue their collegiate studies without the intermission of the Summer months.

The Class of 1877 was a large and excellent one; there were 68 graduates.

The next Session commences March 1, 1878, and closes June 28, 1878.

The Faculty offer a Building and Equipment unsurpassed in the West, with a full and efficient course of dissection.

The Clinical Advantages and the Advantages of a Large Dispensary

will be fully equal to those in Winter, and the courses of private instruction will be equal to those in all of the best Colleges.

NOTE.—In recognition of the standard and policy adopted by the Association of American Medical Colleges, convened at Chicago, Ill., June 4, 1877, the graduation fee of $30 will hereafter be charged, and the Beneficiary Provision limited to five per cent. of the class. The general ticket fee will be $50. No two consecutive courses of instruction will be regarded as satisfying the requirements for graduation, unless the time between the beginning of the first course and the end of the second is greater than fifteen months. The Faculty now occupy a very much larger building, in which the lecture-room, amphitheatre, museum, dissecting-room, and dispensary hall, etc., are among the largest in this country, and the facilities offered the equal of the best.

Matriculation Fee	$ 5	Graduation Fee	$30
Professors' Tickets	50	Demonstrator's Fee	10
